Notes

- The employee may elect to move between the Main and 50/50 sections of the scheme any number of times but each election only takes effect from the next available pay period.
- For concurrent employments, the employee may elect to move between sections for any or all of the jobs they hold.
- If the employee is in the 50/50 section they must be moved back to the Main section from the beginning of the pay period following your “automatic re-enrolment date”. The employee has the right to make a further 50/50 election which, if made before the payroll is closed, would mean the member would have continuous 50/50 membership.
- LGPS Regulation 80 requires that an employer must hold the dates an employee joined and ceased membership of a section (per job), as well as separate cumulative amounts for pensionable pay and employee contributions for each section.
